

"To provide support and recognition to our members who work in partnership with leaders in education in the Province of British Columbia."

SCHOOL PLANT OFFICIALS ASSOCIATION OF BC

ASSOCIATE MEMBERSHIP

The School Plant Officials Association of BC is grateful for the support received from industry and allied associations. Some of our supporters were there in 1964 at our inception and continue to support us today. Many others have helped us along the way. As a way to formalize our relationship, we are pleased to offer Associate Membership.

SPOA Associate Membership includes:

- an Associate Membership certificate;
- the opportunity to attend the Annual General Meeting, Zone meetings and other SPOA sponsored activities;
- the opportunity for sponsorship of SPOA zone meetings and SPOA conference;
- the "Who's Who" directory, providing contact information for more than 180 facilities professionals across BC;
- the SPOA newsletter keeping you up to date on member activities across the province;
- reduced rates on conference attendance, trade show booths and newsletter advertising.

As an Associate Member, you will be joining a network of 180 facilities professionals responsible for the maintenance and cleaning of educational and related buildings across BC. These are the people most involved in the evaluation, purchase and use of all construction and maintenance related materials in public K-12 education. Whether you're involved in facility design; provision or consumption of utilities; equipment sales, servicing or rentals; or sales of consumable products, SPOA members are making decisions about the use of your product or service.

SPOA has an active relationship with the Ministry of Education and is frequently consulted on issues around finance, use and maintenance of facilities.

SPOA is a financially secure association that has been recognized as a leader in the promotion of professionalism in facilities maintenance for over 35 years.

SPOA is proud to have:

- 180+ active members;
- an eight member executive overseeing all Association business;
- six geographic zones providing training and education as well as networking opportunities to members;
- an annual Conference featuring local and international speakers covering current interest topics and professional development;
- BC's best Maintenance Trade Show with over 100 booths displaying products and services from planning to planting, and from parking to roof repair.

To apply, simply fill out the attached membership application form and submit it along with the registration fees to:

School Plant Officials Association of BC
PO Box 19032, 1153 - 56th Street, Delta, BC, V4L 2P8
or fax to 604-943-3541

All memberships are subject to approval by the SPOA executive.
